

WARM AND INVITING

Colors like red, yellow and brown are a good choice when you want to highlight distinctive exterior features. These warm tones evoke the glow of summer and give your home a welcoming feel. Monogram blends and WeatherBoards stains are available in these tones, calling to mind the natural beauty of fresh-cut wood. Warm tans and grays make excellent accents. Trim in darker shades (autumn red, terra cotta, mountain cedar) adds a nice contrast.

This home shows warm tones accented with natural white Restoration Millwork trim: Cedar Impressions Triple 5" Perfection Shingles in buckskin with accents of Half-Round Shingles in autumn red and buckskin. Finishing the look are brown shutters and roof, tan door and red brick steps.
